

South Stradbroke Island

Surfers Paradise hi-rise 12 km south

The cover photograph of this magazine is Surfers Paradise hi-rise towers, seen from the ocean beach at North Currigee. .

The Guidebook entry for The Broadwater makes some mention of North Currigee, but those details are more concerned with getting there, than with what is there.

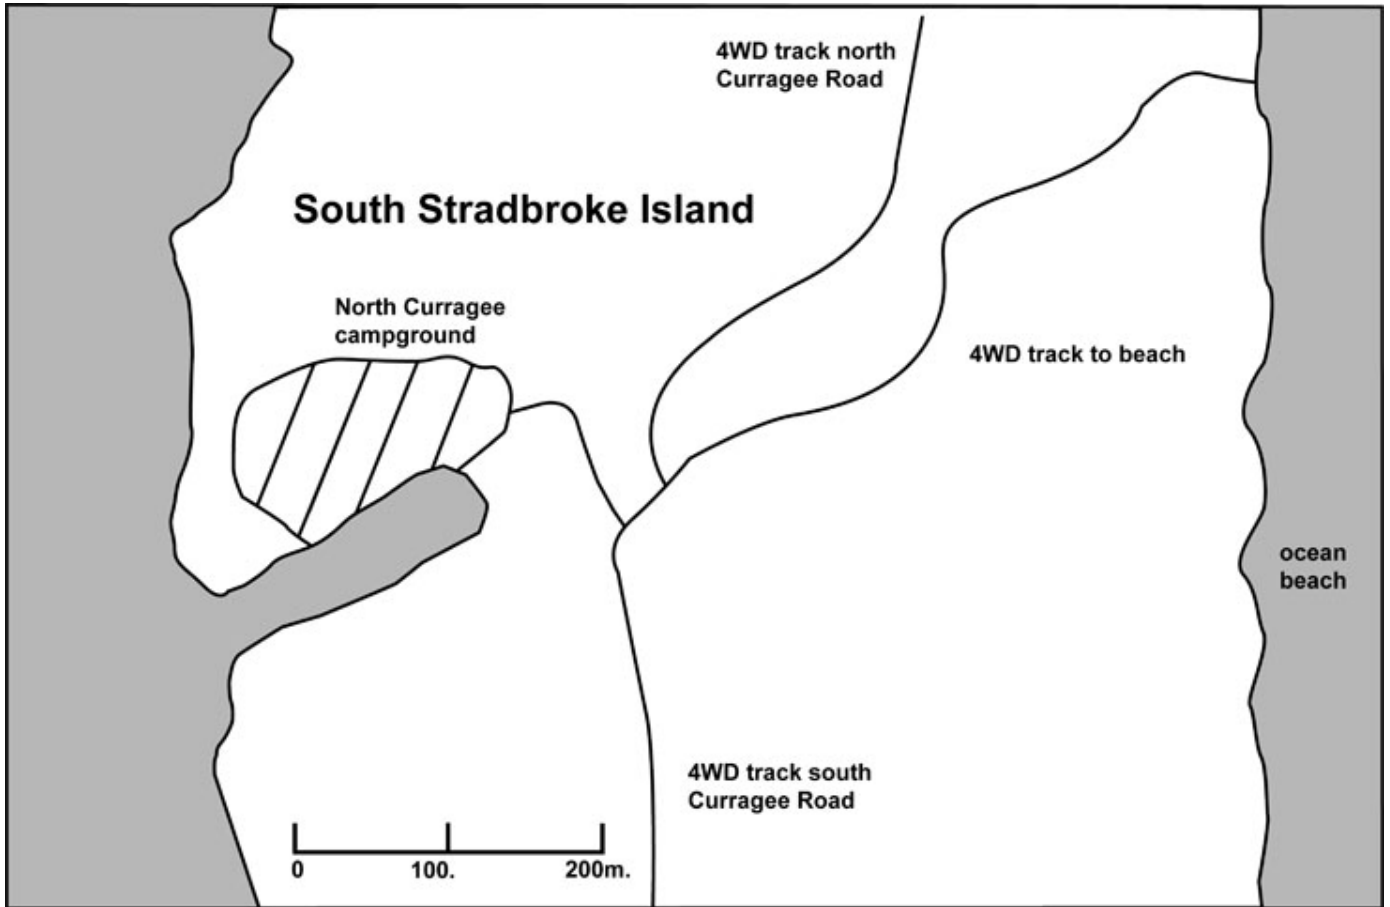

Whether your visit is for a 2 hours, or an overnight stay, the 30 minute paddle from Paradise Point (use your street directory) across the Broadwater is amply rewarded.
